## Representation Cut Threatened To Juniors, Sophs, Freshmen; Inst. Comm. Restores Seniors

### "Lack Of Interest" Hit As Cause Of Action

#### Suggest Representation On Committee For Class B Groups

Junior, Sophomore, and freshman classes were threatened last night with a cut in their representation on the Institute Committee from the present three members each to only one, the class president.

This action, proposed to the legislative body in the form of a motion by Richard G. Vincens, Jr., '38, would alter the present constitutional provision to eliminate the two members-at-large elected from each class. Reasons for the suggested move, explained Vincens, are the present "apathy" and "lack of interest" on the part of the members from the lower classes.

(Continued on page 4)

### 5:15 Club Addressed By President Compton

#### Report of E. C. P. D. Activities Given to Commuters During Smoker

Addressing the 5:15 Club last night, President Compton told of his participation in the Engineering Council for Professional Development.

The E. C. P. D. consists of seven national engineering organizations, and its purpose is to increase the status of the professional engineer, according to Dr. Compton. Four committees were formed: for student selection, school accrediting, professional training immediately after leaving college, and professional recognition and standing.

Dr. Compton is chairman of the committee on accrediting schools. This is a most important position inasmuch as 38 states of the U. S. have their own lists of institutions to whose graduates they would give licenses as professional engineers. As soon as the E. C. P. D. list is completed, it can furnish a master list for these various states and will tend to show future engineers which schools to attend.

(Continued on page 2)

### Radio Society Hears Talk On Television

Howard C. Lawrence, '38, gave a brief talk on television at a meeting of the Radio Society held yesterday at 5:00 in Room 10-275. An experimental receiver, constructed by the speaker was exhibited.

Lawrence first explained the principles of television. He then spoke of some of the more practical details such as economic feasibility, to both the sender and the receiver, the clearness of the image, and elimination of flickers. A few questions from the audience were answered at the conclusion of the speech.

The next meeting is to be held in about two weeks in the building from which WIMX and WIXAL operate. A speaker is expected.

### New T. C. A. President

Staff Photo  
Elmer F. DeTiere, '39

### DeTiere Elected T.C.A. President

#### Evans, Beaujean, and Carr Chosen for Other Offices At Meeting

Elmer F. DeTiere, '39, was elected president of the Technology Christian Association for the coming year at a meeting of the cabinet of that organization Wednesday. Other officers chosen were vice-president, J. Warren Evans, '39; secretary, John A. Beaujean, '39; treasurer, Nicholas Carr, '39. Election was by secret ballot.

At Freshman Camp, Elmer F. ("Pete") DeTiere, did a competent job of worrying even though he was in constant danger of being over come by 328 noisy freshmen. Nevertheless, he became thoroughly endeared to the Class of 1941 as the overworked yet cheerful fellow who prowled about safeguarding army property and breaking up incipient riots. Last year he was in charge of the Advisory Board receipts. He has also been associated with the Tech Cabin, of which he is now in charge.

TCA Elections

### Technology Debators Meet Harvard Tonight

#### New Deal Industry Regulation Subject of Discussion

Arguing the question of New Deal regulation of industry, the Institute Debating Team will meet the representatives of Harvard College tonight in Room 2-190 at 8 P. M. The public is cordially invited.

Brooke Hindle, '40, Nicholas Shumatoff, '38, and Russell Werby, '40, will uphold the negative of the question while Harvard will defend the policies of the administration in regard to regulation of industry.

Professor Sullivan of Portia Law School, Dean Miller of Suffolk Law School, and Mr. John McGrath of the Curry School of Expression will be the judges for the contest. Since Harvard debated Boston College on this same subject Wednesday evening, the Tech team faces an experienced opponent, and the debate promises to be an interesting one.

### Threats On Clubs Removed; Two Abolished

#### Class Members-at-large Would Be Eliminated In Tabled Motion

Threats of extinction to nine Class B activities were dispelled, the Senior Class was reinstated to full recognition, and some form of representation for Class B activities was suggested at the Institute Committee's meeting last night.

Two organizations, the Armenian Club and Square and Compass were formally abolished, since they had ceased to operate. However, Dramashop, Chemical Society, Christian Science Society, Scroll, Architectural Society, Army Ordnance Society, and Woop Garoo were relieved from further charges with the dropping of the motion against them, their debts to the Committee having been paid.

(Continued on page 4)

### Jackie Ford Tonight At Mid-Winter Dance Of The Catholic Club

#### Electrical Engineers Develop Electrocardio-Throbometer To Test Dancers

Heartbeats count tonight at the Mid-Winter Informal sponsored by the Catholic Club, as the latest in novelty personality machines, the Electrocardio-throbometer is introduced in the Main Hall of Walker.

The nature of the device has not been revealed by the inventors, Leo A. Kiley, '39, and Edward Corea, G., but the mechanism is operated by electricity. From the recorded strength and period of the heartbeats, an automatic indication of the patient's condition and probable personality is given.

Jackie Ford will be here for the third time this season after playing at the Dormitory and Senior dances. The dance will start at nine and last until two.

The affair will be semi-stag with the bringing of dates optional. For the benefit of the stags, a large delegation of Jackson coeds are coming stag. A new feature will be student hosts and hostesses who will see that those attending alone are introduced to partners. Admission is seventy-five cents per person; the dance is in-

(Continued on page 2)

Catholic Dance

### Model Labor Meeting Cancelled at Amherst

Cancellation of the International Labor Organization meeting at the Model League of Nations was announced last night.

The town of Amherst is too small to accommodate all the people who planned to attend the convention. For that reason the Labor organization meeting was cancelled, and the list of delegates was revised.

The Technology delegation to the League meeting now consists of R. Newell Thompson, '40, Divo L. Tonti, '40, Harold James, '38, Andrew P. Stergeon, '38, Peter M. Bernays, '39, and L. Hurley Bloom, '40.

### Last Junior Prom Options Must Be Redeemed Monday

Monday from eleven to two will be the last opportunity for redemption of the fifteen options for the Junior Prom which are still outstanding, according to an announcement made last night by William F. Wingard, '39, president of the Junior Class and chairman of the Prom Committee.

Contrary to a previous announcement, there will be no fine attached to these redemptions, but they must be made in the Main Lobby during these hours.

### Active Week End For Musical Clubs

#### Glee Club Sings at Festival; Octet, String Quartet Also Perform

Activities of the Musical Clubs reach a new peak this week-end, as the Glee Club, Octet, and String Quartet each appear in different concerts.

Heading the list of performances is the Festival of College Glee Clubs at 8:15 this evening, at Symphony Hall, in which the Glee Club will participate. Appearing with thirteen other college Glee Clubs in this well-known annual musical event of the New England College Glee Club Association, The Institute group will sing "In These Delightful Groves" and "Sound the Trumpet," both written by Purcell.

Following the Festival a dance will be held at the Hotel Westminster for the singers, from 11 to 2, with Ray Stewartson and his orchestra following the dance rhythms. Admission will be \$1.00 per person.

### A. I. Ch. E. Plans Five Open House Exhibits

#### Synthesis of Several Products Subject of Exhibits

The American Institute of Chemical Engineers has ten exhibits in mind of which five will be chosen for the Open House Program. Three dinner meetings have already been held for the purpose of selecting these exhibits. The next meeting will be held Wednesday at 5:30 in Walker Dining Hall.

Three men have been assigned to each tentative exhibit to determine as much as they can about its possibilities. Anyone interested in working along these lines is urged to see Charles R. Bartells or Frederick B. Grosselinger in the Dormitories.

Among the proposed exhibits are synthetic plastics, the dyeing of cloth, the distillation of oils, and the conversion of crude rubber into the final product.

A new meeting policy has been adopted by the A. I. Ch. E.; a plant visit will be conducted on one Thursday, a speaker will be heard the next Thursday in Room 6-120, and so alternating.

### Bowdoin Marksman Bow to Beaver Team

Defeating the marksmen of Bowdoin College last Saturday at Brunswick, Me., by a score of 1838 to 1299 in its fifth Intercollegiate League match, the Institute rifle team took its ninth victory in ten matches and remained undefeated in intercollegiate shooting.

Tomorrow afternoon the sharpshooters face the hardest match of their schedule when they shoot against the team from the U. S. Naval Academy in Annapolis. The Midshipmen, who have been national champions for the past ten years, are making the only trip of their season when they come to Boston to shoot this match.

### Senior Elections For Marshalls And Committee Held

#### Freshmen Elect Section Leaders Very Few Men Re-elected

134 Seniors Cast Votes

#### Freshman Commuters Triumph. Electing Seventeen To New Council

Last Wednesday the Class of 1938 went to the polls, electing three Class Day Marshalls and twenty Senior Week Committee members.

As announced by C. Kingsland Coombs, Chairman of the Elections Committee, the marshalls are G. Edwin Hadley, Frederick J. Kolb, Jr., and Dale F. Morgan. Committee members are Franklin S. Atwater, Jay P. AuWetter, Welcome W. Bender, Jr., Lloyd Bergeson, John G. Burke, G. Kingsland Coombs, Adam C. Gambel, G. Edwin Hadley, Harry B. Hollander, Frank J. Kearny, Frederick J. Kolb, Jr., Bernard W. Mehren, Dale F. Morgan, Richard Muther, Willard Roper, Livingston S. S. Smith, Fred E. Strassner, Albert C. Wilson, Jr., David A. Wright, and Richard B. Young. Alternates are Frederick E. Ray and Andrew P. Stergeon.

Samuel A. Steere, Jr., was in charge of counting the 130 ballots cast for marshalls and the 134 cast for committee members. Richard A. Markey, Valentine de V. T. deOllough, Jr., and L. Frederick Du Bois, Jr., substituted for C. Kingsland Coombs.

Senior Elections

### Alumni Attend Smoker To Plan Final Drive For Gymnasium Funds

#### Program of Speeches, Fencing, And Singing Attracts Large Crowd

Speeches, fencing, and singing featured the Alumni rally which was held in the University Club at eight o'clock last night in connection with "Build Yourself Into Tech" campaign for raising funds for the new gymnasium.

At this rally, largest of a series which are being held in various parts of the country, the alumni of Greater Boston were told of plans for a regional contest to aid the drive. The campaign will enter its intensive stage on March 7, when the contest, which closes on March 28, will be started simultaneously throughout the country.

**National Regions to Compete**  
Alumni groups in various districts of designated national regions will seek the honor of contributing the largest sums per capita in the region to the recreation fund. Chairmen of the leading regions will be brought to Cambridge as guests of the Alumni Association on Alumni Day in June.

Marshall B. Dalton, President of the Alumni Association, presided. Featured speakers of the evening were Professor Robert E. Rogers and Professor Erwin H. Schell, Head of the Department of Business and Engineering Administration.

**Fencing Exhibition Featured**  
The fencing exhibition was staged by four famous fencers, Joseph L. Levis, a graduate of the Institute in 1926, who is the national foils champion and a former Olympic star; Dr. Giovanni Macerata, Technology coach and former Italian champion; William Pecora, former intercollegiate foils champion; and Rene Peroy, coach of fencing at Harvard.

The music on the program was furnished by the Combined Musical Clubs who featured Technology's famous "Stein Song," composed by Frederick Field Mullahd as the Institute's Alma Mater song.

## WAKING UP

### THE INSTITUTE COMMITTEE

INITIATING one of the most brilliant schemes of recent meetings, the Institute Committee has finally hit upon a plan that should bring a few of its more backward members out of their slumber and make them find out just why they were elected to the positions they now hold. The present attitude of a number of the representatives toward the business of the Committee shows a state of affairs that should not be tolerated.

After the last meeting it was mentioned by one of the Seniors that he had not heard the voice of the younger representatives till a few of them had been aroused to the point that they were worried enough to attempt to discredit the motion to put them off the Committee. Also, during the meeting, discussion for and against not recognizing the Senior Class for another two weeks or so was left to be fought out among the Seniors themselves. That Class might have been punished further for a regrettable incident, but with only Seniors interested in it, the outcome was hardly in doubt from the beginning.

There is evidently something wrong in the way the Committee has been functioning. It was proposed that the trouble is in the amount of "dead-wood" or uninterested members who have a vote and a voice but don't have much reason for using either. There is some discussion as to where the "dead-wood" begins and where it ends, but in an attempt to find just what is wrong the freshman, Sophomore, and Junior Class representatives will be given the first chance to prove that they are not the ones who are apathetic and useless in the meetings.

At the meeting and afterwards there were many references to a supposition that the motion was made simply as a joke and not intended to be voted on, but joke or not it stands as business of the Committee and will be brought up and passed if nothing is done to stop it. The proposal may sound silly, but the issue is now real and if the three affected Classes do not present good reasons for having things otherwise, they may be left with only one representative apiece.

For these Classes to lose part of their representation would indeed be a tragedy, and they would no doubt be heartily censured by their classmates. To designate these men as merely a "check-valve" is certainly faint praise, but what appears to be their first big job is hardly more than that.

From the arguments concerning the proposal to reduce the number of representatives, it appears that there was more said for than against it. The sentiment of the body was not positively determined, but at least a ma-

jority considered it worth tabling for consideration at the next meeting when it can legally take the form of amendments to the Constitutions.

The outcome of an actual vote is still doubtful, but the representatives who would lose their seats are far too few to consider their number alone sufficient to be sure to defeat the motion. Unless definite, concise, and convincing reasons are brought forth, their presence may be voted undesirable, and they will have failed in their duty.

The Institute Committee did not intend to attack the Classes themselves, but they have struck the representatives in their most vital point. The reaction should be interesting.

## Letters to the Editor

### President of the Institute Committee

To the Editor:

In an editorial in your issue of February 18, relative to the loss by the Senior Class of recognition on the Institute Committee, you stated: "The Senior Class is still out . . . and logically, since he holds his position by virtue of his being head of the Senior Class, the President of the Committee also."

I quote from the Constitution of the Institute Committee:

"Art. V, sec. 2: The President of the Senior Class shall be President of the Institute Committee . . ."

"Art. V, sec. 1 (by-laws): It shall be the duty of the President to preside at all meetings of the Institute Committee."

In short, my position on the Institute Committee is of a dual nature, and the Authorization for it comes from two distinct conditions, either of which is sufficient in itself. My privilege of representing the Senior Class by voting (which I have never exercised) is forfeit, but my other privileges and duties are unaffected. This information may be found in the T.C.A. Handbook, which is available to the Editor of The Tech.

I venture to suggest that concrete evidence rather than heresay or "logic" should be the basis for Editorial conclusions, especially when they have personal implications.

In the same editorial you state that the "apathy" of the Institute Committee is "due partly to the tight grip which the Executive Committee holds on the affairs of the larger body." How does this work out? Does the Executive Committee discourage initiative? Does it discourage you, Mr. Editor? If so, let me state that the Institute Committee stands ready, as always, to welcome suggestions from yourself (as from any other) on the improvement of Faculty-Student relations, skating rinks, or any other "needed reforms."

JOHN J. WALLACE,  
Pres. Class of 1938.

## Catholic Club

(Continued from page 1)

formal.

Chaperones from Technology will include Mr. and Mrs. Herman J. Shea, and Mr. and Mrs. James Philpotts. Members of the committee in charge are: Paul R. Black, '38, president of the club; Welcome W. Bender, '38, Malcolm F. McKeag, '38, and John H. Keefe, '39.

## T. C. A.

(Continued from page 1)

The out-going officers plan to meet with their successors in the spring for the purpose of electing the remainder of the organization's cabinet.

It was announced also at the meeting that Professor F. A. Magoun of the Department of Humanities will deliver a series of lectures on marriage to be sponsored by the T. C. A. The first lecture will be given in

April.

Opening of the organization's semi-annual book sale was also reported. During this sale those books which have been on the exchange's shelves for over a year will be sold for 10 per cent of their original cost.

## 5:15

(Continued from Page 1)

The accrediting of the various institutions throughout the United States has taken four years, President Compton told the commuters, but 150 out of 155 schools have already been decided upon. The remainder will be passed upon this year.

Before Dr. Compton's talk, Prof. George Owen showed color and slow motion films. Much of the subject matter dealt with sports and the remainder was about boating.

After the program, doughnuts and coffee was served to all present.

## CONGRATULATIONS FRESHMEN

Class of '41,

We extend our sincere congratulations to all of you who have weathered the storm of the first term. True, your ranks have been thinned. Technology is the place where only the strongest survive.

But we take our hats off to those among you who have done more than just study, those who have run with Oscar Hedlund, boxed with Tommy Rawson, or otherwise contributed their brawn to Institute athletics, even if it was only to escape P. T., and those who have helped Dramashop, put out T. E. N., Technique, and Voo Doo, played with the Musical Clubs, spoken for the Debating Society, or otherwise contributed their brains to Technology activities.

To our own staff, who have worked and "bullied" with us, we owe a greater measure of appreciation.

But all you freshmen do not enter into the spirit of Institute life. To you we offer a chance to become acquainted with our paper.

In the near future we are planning a social event for the purpose of introducing new men to our present active staff. If you are interested in becoming one of these new men, leave your name with the secretary in the office of The Tech or get in touch with some member of the staff immediately. There are opportunities in every department.

Come out of your shell and meet the gang!

## Tufts Outclasses Tech Track Squad

Kites Equals Tech Vault Mark As Tufts Men Dominate Most Events

Unable to cope with superior performances, the Institute trackmen lost last Saturday to the Tufts varsity squad by the score of 58 to 32, in spite of a clean sweep in the pole vault, and a near clean sweep in the high jump.

It was in the pole vault that the Institute record of 12 ft., 6 in., was equaled by Luther Kites. Kites thought he had gone over at 12' 8", and was rather exasperated to find out that he had only equaled the record. However, he went on to capture a second in the broad jump.

Tufts, scoring clean sweeps in the 50 yd. dash, and the mile, dominated the majority of the events.

Last Tuesday the delayed meet between the frosh track squad and Medford High School came off, with the Institute freshmen ending up out in front, 49 2/3 to 22 1/3.

### Kites Ties Inst. Record

## Varsity Swimmers To Meet B. U. Saturday

Dean Academy Adversary For Freshman Team

The Institute team meets up with a team from Boston University this Saturday, after having lost two meets during the last week. They were submerged in turn by R. P. L., 53-22; and by Union College, 50-20.

As announced by Coach Jarosh, the line-up for the B. U. meet Saturday afternoon is as follows: 300 yd. Medley—Brewster, Williams, Schuler; 220

yd.—Wheeler, McEvoy; 50 yd. dash—Main, Gardner; Dives—Paige, Cooke; 100 yds.—Schuler, Main; 150 yd. Backstroke—Brewster, McEvoy; 200 yd. Breaststroke—Williams, Morgenthauer; 440 yd.—Parker, Gunkle; 400 yd. Relay—Gardner, Wheeler, Bradner, Schuler.

At the same time a successful freshman team, having just licked Huntington, 37-20, will undertake to do the same thing to Dean Academy at Franklin, Mass.

The varsity plungers are putting much of their hope into Williams who has often broken the Institute record of 2:46.1 in the 200 yard breaststroke in practice, but who so far has not done so in competition.

## Elections

(Continued from page 1)

T. Robert Harris, and Albert O. Wilson, Jr., members of the Elections Committee absent from the counting.

### Freshman Elections

Paced by the commuters who monopolize the second term freshman section leader elections by winning seventeen of the twenty-five leadership posts and fifteen alternative places. The fraternity group came second with six of their number receiving the first positions and five assistants, while the dormitory men voted in only two leaders and four alternatives.

This term's elections was a repetition of last term, the commuters, however, increasing their lead. Conspicuous by her absence in this elec-

tion was the only coed leader; Janet Norris, however, retained her alternative post in section 25.

Very few men were re-elected this term, but this was probably because so many men were changed to different sections. A list of the various winners follows, with the leaders preceding the alternatives.

Section 1, Charles S. Butt, Jr., and John J. Nage, III; section 2, Edward A. Beaupre and Joseph Blackman; section 3, Stanley B. Zdonik and Sam Fry; section 4, Joseph L. Klein and Frederick C. Came; section 5, Bruce Beard and Erling H. Hustvedt.

Section 6, Joseph G. Gavin and William R. Ahrendt; section 7, Walter W. Aker and Daniel J. Lenane; section 8, Robert M. Alfred and William G. Kuesmaul, Jr.; section 9, Donald Scarff and both David B. Holsington and Norman I. Shapira; section 10, L. Merton Richardson, Jr., and John R. Berry.

Section 11, Francis A. Regan and James A. Thompson; section 12, Robert W. Mayer and Joseph G. Anthony; section 13, Nathaniel Sage, Jr., and William M. Shepard; section 14, Arnold S. Mengel and William H. Cherry, Jr.; section 15, Walter L. Threadgill and Rogers B. Finch.

Section 16, Warren J. Myers and Stanley Backer; section 17, Johan M. Anderson and William R. Schwindler; section 18, Robert W. Blake and David S. Saxon; section 19, Richard A. Van Tuyl and Albert A. Smith; section 20, George Farnell and Franklin W. Killk.

WHAT M. C. COBEN SAID TO HAROLD SNEAD,  
CHIEF PILOT OF TWA

*"Do you find Camels really different from other cigarettes?"*

Harold Snead gives his own answer—"Camels agree with me!" he says. And millions of other smokers agree with Pilot Snead, making Camels the largest-selling cigarette in America

ON HIS SECOND MILLION MILES! Snead has been flying since the "night mail" days. He knows what he's talking about when he says: "You've got to take care of yourself in this line of work. Ragged nerves are out. I smoke—all I want. Camels don't get on my nerves."

A FEW of the instruments that Pilot Snead has to watch. After a trip, Hal likes a Camel. "When I feel tired, I smoke a Camel," he says. "Yes, I get a 'lift' with a Camel. You may think I am enthusiastic about them. I am! All in all, here is a cigarette that agrees with me!"

"Some people say all cigarettes are alike, Mr. Snead... Can Camels really be so different?"

"There's a big difference, sir. I know most of the American fliers with records of several thousand hours in the air. The majority are steady smokers and prefer Camels, as I do. Experience has taught them that Camel is a really different cigarette!"

AFTER THE BIG TWA SKYSLEEPER, above, was set down in Newark Airport, M. C. Coben was chatting with Hal Snead, chief pilot of the Eastern region, and Isabelle Judkins, air hostess. Hal pulled out his Camels and offered them around. And so they got to talking cigarettes!

ON DUTY, Isabelle is a perfect hostess! "I notice most of the passengers on the TWA run prefer Camels," she says. "When conversation turns to cigarettes, someone always exclaims that Camel is certainly the cigarette that is different. The comment I often hear is, 'Camels agree with me.'"

### NEW DOUBLE-FEATURE CAMEL CARAVAN

Two great shows—"Jack Oakie College" and Benny Goodman's "Swing School"—in one fast, fun-filled hour. On the air every Tuesday night at 9:30 pm E.S.T., 8:30 pm C.S.T., 7:30 pm M.S.T., 6:30 pm P.S.T., over WABC-Columbia Network.

## Representation

(Continued from page 1)

## Wingard Berates Committee's Activities

Retaliation to Vincens' proposal and answers to his challenge to his underclass colleagues to "present valid reasons why they should be seated here" was led by William F. Wingard, President of the Junior Class. The Institute Committee should act as a "check valve," said Wingard.

The Junior executive then stated to the Committee his opinion of the workings of that body: "A lot of tomfoolery goes on—all I can see it does is waste time." He compared the group to the U. S. Senate, in that "it doesn't do much."

## Kolb Hits Motion

Reduction of representation was also hit by Frederick J. Kolb, Jr., vice-president of the Institute Committee, in asserting that membership on the Committee is "proving excellent training to carry on the work of the Committee in future years." He advocated cutting down "some of the deadwood of this Committee," and went on to explain that this "deadwood is mostly those Seniors who are on the Institute Committee just as a technicality and whose interests do not lie in this body." As an added argument, he stated that the present large membership should be maintained so that the group would have "enough people to vote to make voting worthwhile."

Freshman Draws Cheers, Applause  
At this point a freshman delegate,

Joseph G. Gavin, Jr., drew a burst of applause and cheers from the members when he called for the representatives to "vote intelligently" rather than "make motions to stir up a rumpus."

Again Wingard questioned the usefulness of the Institute Committee, calling for examples, if any, of what it had done recently. When a colleague cited the now defunct point system, Wingard pointed out that the purpose of the committee was to provide a "check on stuff like that." At this Chairman Wallace cautioned the solon to "place your remarks on good evidence rather than on supposition," Foster Protests Exclusion of Lower

## Classes

Additional defense of the passive attitude on the part of the lower classes was furnished by Raymond C. Foster, Sophomore Class President, in pointing out that sophomores in the past "have not been privileged to sit on some of these committees."

Another motion by Vincens, made at this point in the proceedings, to table the original motion, was defeated. Willard Roper, '38, then suggested that a committee be appointed to investigate the charges, stressing the points that the members needed more time for consideration and also that such a delay would "give them something to do."

Opposition to a continuation of discussion was voiced by Wingard, who observed that the members were "going to be late to dinner." In a final plea for a close of the discussion, Wingard pointed out with a wry glance at the clock that the past-dinner hour "is going to cost me fifty cents." Adjournment followed shortly afterward, following the tabling of the original motion.

## Muther's Excuses Accepted

Reinstatement for the Senior Class was obtained as a result of a petition signed by John J. Wallace, Frederick J. Kolb, Jr., and Richard Muther, the class representatives, and the verbal explanation of Muther of his absence from two successive meetings. Objections to the reinstatement were raised by Richard G. Vincens, Jr., '38, who referred to the letter of petition as a "scrap of paper" and observed that the repeated suspension and readmittance of classes "will look ridiculous." He added, however, that if Muther's excuses were satisfactory, he favored striking Muther's absences from the minutes and dropping the motion of withdrawn recognition. G. Edwin Hadley, '38, criticized the Senior Class, stating that it "has not shown interest in the Institute Committee."

Muther was defended by Willard Roper, '38, and Francis J. Kearney, '38, the latter stating that Muther had always been "active on this august body." The motion was then passed.

In protest against "taxation without representation," as expressed by Budget Committee Chairman Willard Roper, a suggestion was advanced by him that one or two more men be elected to the Institute Committee to represent the body of Class B activities.

## Sub-Committees Appointed

All constitutions submitted to the committee for approval will be considered by special sub-committees before being voted upon, Wallace announced. In the future, he stated, members wishing to leave meetings before adjournment must file valid written excuses with the Secretary before meetings.

A change in the Undergraduate Constitution was tabled, which establishes regulations for the acceptance of undergraduate constitutions. By a provision of the change, heads of actions upon taking office.

## Elections Approved

The Institute Committee approved: Lloyd Bergeson, '38, Richard Muther, '38, and Alexander P. Bates, '38, as Officers of the Executive Committee of the M. I. T. A. A.; Joseph J. Donovan, '39, as T. E. N. Editor-in-Chief; Elmer F. DeTiere, Jr., '39, John W. Evans, '39, John A. Beaujean, '39, and Nicholas E. Carr, Jr., '39, as officers of the M. I. T. A. A.; the constitution of the Radio Association, and the seating of Robert L. Johnson, '38, for T. E. N. and Lloyd Bergeson for M. I. T. A. A. in the Institute Committee. Robert C. Casselman, '39, was appointed by the Executive Committee of the Institute Committee as Junior member of the Senior Week Committee.

A motion to grant recognition to the Clef was tabled after a reading of its constitution.
